"Your Comfort, Our Responsibility"™

CONCIERGE SERVICES

Concierge Services are customized services based on a specific type of outpatient surgical intervention.

These services are an extension of the physician's practice and are based on protocols developed for home follow-up care which requires a specific outcome.

Inside are some of the many Concierge Services we offer.

"Your Comfort, Our Responsibility"™

PLASTIC SURGERY or CATARACT SURGERY

Concierge Services assure that the physician's protocol for follow-up care is carried out according to instructions, and can include:

- Transporting the client from their home to the surgical center and waiting for the client to be discharged.
- Gathering the client's personal belongings and the physician's home follow-up instructions, including prescriptions.
- Transporting the client home and stopping as long as needed to obtain prescriptions.*
- Settling the client into comfortable clothes and position (in bed) and preparing a light meal.
- Assisting the client to and from bathroom facilities as needed.

* can be done in advance when there is a close relationship with the facility

- Assisting with medication.
- Preparing dinner.
- Staying overnight with the client in the event assistance is required.
- Assisting the client with morning showering, dressing and grooming.
- Preparing breakfast.
- Transporting the client to the physician's office for post-surgical follow-up.
- Transporting the client home and assuring the client is comfortable and ready to be left alone.

In a case involving Orthopedic Surgery, the following services are also offered:

- Attachment of the continuous motion machine for the specified period of time.
- Passive Range of Motion in accordance with the physician's protocol.

ORTHOPEDIC SURGERY
